

Chiesi (UK Ltd) and Health Innovation Oxford & Thames Valley Executive Summary

Respiratory Transformation Partnership – Phase 1

Aims

To collaborate with Health Innovation Oxford & Thames Valley through a series of co-creation workshops to decide on projects that will form part of a national transformation programme to improve care for people with Asthma and COPD.

Intended Benefits

Patient Benefit: Outputs from the workshops will set out plans to maintain or support improvements for people with Asthma and COPD.

NHS Benefits: During the workshops the NHS can benefit from industry insights

Industry Benefit: During the workshops industry can learn from healthcare partners and gain additional understanding of patient needs and operational pressures

Expected outputs

A Project Initiation Document will be then produced, setting out project plans for improvement and a further collaborative working agreement will be entered into.

This collaboration involves a balance of contributions from both parties with the pooling of skills, experience, and resources.

This involves a balance of contributions from both parties with the pooling of skills, experience, and resources.

This phase 1 will take place from 17th March 2026 to 30th June 2026.
